

**Kayla Rudloff  
Hettinger, ND**

**Montana Dakota Beef  
Director of Ag Product Export Division**

**MAG-7  
Director of Project Infrastructure Implementation**

Kayla collects and manages all data for the beef, honey, and flour export platforms. She organizes data requirements specific for export, tracking, as well as archiving in our database. Kayla also manages development software including product specific QR codes, these are blockchain protected to provide traceability of our exported products.

With MAG-7, Kayla will coordinate and assist contractors, investors, city/county/state regulators, and engineering companies. Duties will include grant writing and investment tracking. Her people and organizational skills will assist in HR and staff management. Kayla looks forward to pursuing all tasks needed for plant development and manufacturing.

Kayla was raised on a large ranch near Lakeside, NE. Kayla developed a deep appreciation for quality performance horses. Her favorite hobby is developing and competing with reining cow horses. While in Nebraska, Kayla managed 500+ head of registered Quarter Horses. Duties included: registration certificates, DNA tests, breeding reports, training records and segregating bills of sale.

Coming to Montana Dakota Beef, from a strong technology-based banking background of 1<sup>st</sup> Financial Bank USA, Kayla has worked in many aspects of the banking industry. Systems Analyst, Internet Banking Specialist, Accounts Payables, Disaster Recovery Policy Manager, and a Loan Officer/Secretary managing funds for an 85MM portfolio with over 500 home contractors across the United States. One of her most challenging positions was being an Audit Specialist. Responsible for providing material regarding financial audits and KPMG/FDIC Security Technology audits for the Community Bank Branches.

Kayla is also an avid shooter and holds a Type 8 FFL, CCW permit, and many proficiency ratings.

Kayla is also a member of AQHA and APHA.
